Case Report - Patient 11 - 2021

Case Background

Female, Age: 74

Case Data

Day 0 - Wednesday - Date of pronouncement.

Day 2 - Friday - The patient's family contacted us regarding services and informed us that they had identified a local physician to perform the removal and immersion fixation. They provided the physician's contact information so we could communicate the appropriate packaging and transport instructions.

- Contacted the physician to discuss the specifications.

Day 27 - Tuesday - The patient's fixed brain arrived at our facility, transferred to a fresh solution of 10% neutral buffered formalin and 3% glutaraldehyde. Placed in refrigeration for permanent storage.
